

Dear Honorable Members of Committee;

I strongly oppose BILL SB184.

An important embodiment of our country's democracy is the right to vote. We should take and protect our electoral rights and system seriously.

To make sure our elections are fair and transparent, the practice for hundreds of years has proved that individual on-site voting is the most fair and transparency. It can prevent and deter all kinds of crimes in voting to the greatest extent possible. 2020 presidential election caused controversies are very shocking. This has shaken people's confidence in the electoral system and has shaken confidence and recognition of the country. Mailling ballots are one of the issues and controversies out there. Mass mailing Ballots, in fact, simply cannot confirm the legitimacy of those ballots. We all know that we are not ready for it based on our social reality. We still need to have strict restrictions on voting by mail, which is only for those needs rather than others or for all. We need to protect our voting rights and system as we protect our eyes. It is not about the politics, it's about our future, it's about our democracy, and it's about our system.

Please say no to Bill SB184.

Thank you!
